

GOOD SHOWING OF LABOR UNIONS

Extracts Taken from the Reports of Labor Commissioner Doherty.

Following is an interesting extract taken from the advance sheets of the annual report of Labor Commissioner Doherty on the subject of labor unions:

Continuing their inveterate habit when this bureau started pertaining to the growth of organized labor and the benefits derived therefrom, schedules were sent to 132 unions, and responses received from 121. In the previous report only 29 reported, and this increase in the number of replies received this year would indicate an increased interest in the bureau and a desire for its success.

Of the 121 reporting 45 reported an increase of wages ranging from 5 to 50 per cent., and not one reported a decrease. Two unions reported an increase in the hours of labor, and 14 reported a decrease. The balance went to beneficial and other purposes. This embraced what is termed "sick," "out of work" and "death" benefits, and this feature of the unions appears to be managed in the most careful and business-like manner. The dispensation of the large amount referred to did not seem to be a source of trouble, and this special feature bids fair to increase the popularity and usefulness of the unions.

The fact that only one strike was reported, and that many unions secured increased wages for their members, would indicate that the affairs of these organizations were managed with discretion, conservatism and success.

The total membership reporting was 10,664 as compared with 1,436 in the previous report. With the number of organizations not reporting, which are in full sympathy with those reporting, the total membership would be increased to about 18,000, and the amount of financial aid distributed would be correspondingly augmented.

The management of their affairs the question of arbitration was generally adopted, and it might be said played a most important part in the settlement of controversies and differences between employer and employee.

About 80 per cent. of the unions recommended legislation. These desired the passage of the employer's liability bill, and the bill providing for the inspection of steam boilers, which two measures failed of passage by the last Legislature. They also recommended the passage of a child labor bill, and a bill providing for the stamping of convict-made goods.

The general conditions of your trade or calling been improved owing to the existence of your organization, all responded in the affirmative, many of them stating that they had been benefited by the labor unions in behalf of the wage earner.

The tables that follow will give replies in condensed shape to the interrogatories propounded by this bureau. The first table is the full compilation that has been made for publication in this State.

Two reports were received too late for classification. One shows an increase of 25 per cent. in wages, and the other 45 per cent. Total amount paid out by both unions "for assistance" was \$12,500. They also report that great benefit has accrued from organization.

Mr. Jones Improving.

Mr. James E. Jones, formerly agent for the Chesapeake and Ohio Company at Piedmont Station, and for some time past a clerk in one of the departments of the company in this city, has been ill from typhoid fever at the Hotel Hamilton. He is convalescing, and it is thought he will soon be out. His mother is with him.

Mr. Branch Indisposed.

Mr. Carter W. Branch has been indisposed for several days from the effects of the grip. He is confined to his room, but is not seriously ill.

Property Transfers.

Richmond: Robert J. and John Arrington to A. J. Warren, 1911-12 feet on south side Clay Street, 1911-12 feet east of Kinney, \$885.

Jackson: Guy, special commissioner, to F. M. Conner, trustee, interest in 74-612 feet on Grace Street, between Thirty-first and Thirty-second Streets, and 25 feet between Grace and Franklin Streets, \$25.

John W. Hughes to Mrs. C. T. C. Carter, 21 feet on Chestnut Street, between Taylor and Cabell, subject to deed of trust for \$25, \$500.

William H. Jennings and wife, Ida B. and Theo. Dumbavant, E. L. and Oscar Hunt, Mattie E. and Warren C. Arsell, Bruce Jennings, J. H. Jennings to Mary C. Allan, 42 feet on north side Main Street, 107-12 feet east of Lombardy Street, \$1,500.

Henry J. Jackson to John Bagley, 1611-12 feet on south side Orange street, 112-12 feet on south side Orange street, \$1,212.

A CAUSE OF HEADACHE.

Headache is a symptom, an indication of derangement or disease in some organ, and the cause of the headache is difficult to locate because so many causes have been ascribed to it. The most common cause of the headache is the stomach and liver, heart trouble, kidney disease, lung trouble, eye strain or ill-fitting glasses, all produce headaches and if we could get rid of the cause, the headache would be cured. The cause of the headache is in fact the cause of the headache, and it is a much simpler matter.

However, for that form of headache called frontal headache, pain behind the eyes and in forehead, the cause is now known to be catarrh of the head and throat; when the headache is located in back of head and neck it is often caused from catarrh of the stomach or liver. At any rate, catarrh is the most common cause of such headaches and the cure of the catarrh causes a prompt disappearance of the headache.

There is at present no treatment for catarrh so convenient and effective as Stuart's Catarrh Tablets, a new internal remedy in tablet form, composed of antiseptics like Eucalyptol, Gualacol and Bismuth, which act upon the blood and cause the elimination of the catarrhal poison from the system through the natural channels.

Miss Cora Ainsley, a prominent school teacher in one of our normal schools, speaks of her experience with catarrhal headaches and endorses Stuart's Catarrh Tablets as a cure for them. She says: "I suffered daily from severe frontal headache and pain in back and back of the eyes, at times so intensely as to incapacitate me in my daily duties. I had suffered from catarrh, more or less, for years, but never thought it was the cause of my headaches, but finally became convinced that such was the case, because the headaches were always worse whenever I had a cold or fresh attack of catarrh."

"Stuart's Catarrh Tablets were highly recommended to me as a safe and pleasant catarrh cure and after using a few fifty-cent boxes which I procured from my druggist's I was surprised and delighted to find that both the catarrh and headaches had gone for good."

Stuart's Catarrh Tablets are sold by druggists at fifty cents per package, under the guarantee of the proprietors, that they contain absolutely no cocaine (found in so many catarrh cures), no opium (so common in cheap cough cures), nor any harmful drug. They contain simply the wholesome antiseptics necessary to destroy and drive from the system the germs of catarrhal disease.

A VERY LITTLE COMMON SENSE

In Treating COUGHS CATARRH AND CONSUMPTION

Will Save Thousands of Lives Annually.

DO YOU USE IT?

That thousands of lives could be saved annually if the people who are afflicted with respiratory diseases, used a little common sense in treating the same, is a well known fact to all medical men. It seems, however, that although men and women exhibit good sense and judgment in conducting the ordinary affairs of life, the moment they find themselves afflicted with disease, they immediately lose their heads; forget to use their reasoning powers and eventually become victims of their own folly.

Especially is this true of those who contract Catarrh, Bronchitis and Consumption. Every man, woman and child who can read, now understands that Consumption is a germ disease; that these germs are located in the lungs and must be destroyed before there is any possibility of a cure being effected.

Every one of these people have been taught in our public schools that nothing but the air we breathe can enter the pulmonary tubes and lungs; that the air passages are so constructed as to prevent the entrance of any kind of being inhaled.

Yet in spite of this knowledge, thousands upon thousands of people annually purchase stomach medicines or treatments, sprays, douches and atomizers. The excuse generally given for using these remedies after they have proven failures is that they saw such wonderful testimonials in the papers. But this is no excuse at all, although you may not know that testimonials of prominent men can be purchased by the hundreds in almost every State, you DO KNOW, if you stop to think, that such remedies CAN NOT CURE THE GERMS CAUSING THE DISEASE.

If the victims of Catarrh, Bronchitis and Consumption would show the same care in purchasing remedies for these diseases that they do in buying other articles, they will find upon investigation that during the whole history of medicine, but one cure for these diseases has been known to the human race. The testimonials there is not one case on record where genuine Consumption has ever been permanently cured until this one treatment was discovered.

There will be no doubt that there is but one treatment among the thousands advertised, which is recommended and prescribed by physicians. They will find if they take the trouble to investigate and read the full and complete Hyomei Vital Statistics in Washington, that the deaths from Consumption increased 50 per cent. yearly up to 1895 when this new remedy was first given to the public and since that time deaths from respiratory diseases have decreased on an average of 20 per cent. annually.

These are facts and figures which any one can obtain from published records. They are not the kind of things an advertiser, or testimonials which have been bought. Your own common sense will tell you that stomach medicines, sprays, and vapors cannot kill the germs of Catarrh, Bronchitis and Consumption, and your doctor and the Government reports will prove the rest. As to the only cure for these diseases, it is called HYOMEI.

HYOMEI is the ONLY cure because no other germicide of sufficient power to kill the germs of Catarrh, Bronchitis and Consumption, can be inhaled in the air we breathe.

It is the ONE cure because it is only through the air we breathe that these germs can be reached. Stomach medicines may increase your strength. Strong drugs, vapors and sprays may destroy your cough, but the germs of Consumption are rapidly increasing in your lungs and death is inevitable unless they are destroyed.

There is but one way to do this. BY THE USE OF HYOMEI DAILY. Coughs, Croup, Catarrh, Bronchitis and Consumption cannot exist where it is used. It is guaranteed to cure, or your money refunded.

Five days' treatment is sent free to any address on receipt of a 2c. stamp. HYOMEI sold by all druggists or sent by mail. Complete Outfits \$1.00. Trial Outfits 25c.

THE R. T. BROWN CO., Ithaca, N. Y.

feet west of First Street, \$500.

Same to Mrs. Helen T. Tritton, 168-18 feet on south side Orange Street, 168-12 feet on south side Orange Street, \$500.

Same to L. W. and Mary J. Ryland, 168-12 feet on south side Orange Street, 30 feet west of First Street, \$500.

Mrs. Marcella Lecky to E. W. Brown, 21 feet on south side 1st St., 1st St. at southwest corner Second Street, \$3,875.

Henrico: J. W. Talley to John W. Anderson, interest in 120 feet on north side Taylor Street, between Lady and Randolph Streets, \$30.

LAWLESS DISTILLERS.

Make Spurious Apple Brandy, Which Is Very Injurious.

(Special Dispatch to The Times.)

GAYS, VA., Feb. 2.—Steps are being taken to secure a local option election in Jackson District, Louisa county, and thereby prevent, if possible, the manufacture and sale of moonshine brandy. The men who make brandy in this neighborhood have been so successful in cheating the Government while making apple brandy that now they are running their distilleries nearly all the year making pure apple brandy from sugar molasses and almost anything that will ferment. The stuff thus manufactured and sold here under the name of "apple brandy" is sold to be very injurious to those who are foolish enough to drink it, and several deaths are said to have been the result of drinking this mixture. The people seem to be thoroughly aroused and determined to call the moonshiners to a halt.

The smallpox scare seems to have subsided in this part of the county. Those who have had it do not seem to have been made very sick by it.

Muscles seemed to be more drooped here than smallpox. Mr. James T. Mery, 61 has six of his family in bed with measles. His eldest son has pneumonia with measles and is considered dangerous.

The snow is about three inches deep here and the weather very threatening.

High Point Industries.

(Special Dispatch to The Times.)

HIGH POINT, N. C., Feb. 2.—High Point will have one of the roller mills merged into a much larger concern now in a short time, with a capacity of 125 barrels per day.

The Business Men's Association held a meeting Monday night for the purpose of talking steps to better roads leading to the city, also for erection of a good hotel.

The High Point shirt factory is building a large factory on English Street.

The residence of No. 119 East Leigh Street, owned by Mrs. M. J. Lecky, has been sold to E. W. Brown for \$5,825.

SIZE OF THE BODY AGAIN DISCUSSED

Convention Membership Up in the House.

NO ACTION WAS TAKEN.

Adjournment Until Tuesday, When the Body Will Meet Daily at Ten o'Clock and Hold No Afternoon Session.

There was no session of the Senate yesterday. The House further discussed the question of membership of the Constitutional Convention, but no action was taken. Mr. Saunders concurred his argument in favor of electing a portion of the delegates from the State at large, and Mr. Baker made an able speech in favor of one hundred members, appointed on the basis of the House of Delegates.

The House decided, to adjourn until Tuesday in honor of the memory of Chief Justice Marshall, and to meet from now on, at 10 o'clock instead of 12 o'clock, and adjourn each day at 2 o'clock P. M.

Neither branch will be in session tomorrow, the Senate having adjourned on Friday until Tuesday at noon. Indications point to the final adjournment of the Legislature by the middle of this month.

The House concurred in a Senate joint resolution providing for the appointment of a Commission to devise a better system of check and balancing the State Department and report to the next regular session.

There was no prayer in the House. The attendance of members was rather slim, a great many of them having gone home to spend Sunday. Ex-Senator L. D. Yarrell, of Greenville, was on the floor of the House shaking hands with his friends.

The House agreed to a Senate joint resolution, providing for the appointment of a joint commission, composed of two members on the part of the Senate and three on the part of the House, to study the vacation and endeavor to formulate a better system of check and balance between public officers of the State and to report to the next regular session of the Legislature. The resolution is in line with suggestions on this subject contained in the Governor's message, to the extra session. The Chair appointed the following members of the commission on the part of the House: Messrs. Buzz, Bowles and Pollock.

TO SELL FOR JUNK.

Mr. Churchman, of Augusta, offered the following resolution, which was agreed to:

Whereas there is great feeling of insecurity owing to the great weight in the top of the Capitol; therefore, be it

Resolved by the House of Delegates, The Senate concurring, That the Secretary of the Commonwealth be and he is hereby instructed to select any of the books in papers of value there stored and place in the Library building or basement and sell the residue as waste paper. The Register of the Land Office is instructed to use the force under his control in carrying out the provisions of this instruction.

WILL MEET AT TEN.

Mr. Bowles, of Salem, offered the following resolution, which was agreed to:

"Resolved, That beginning on Tuesday, January 23, 1901, this House shall meet daily at 10 o'clock A. M., and the speaker orders heretofore set for 12 o'clock P. M. shall be heard at 11 o'clock A. M. in stead."

Mr. Clarke offered an amendment, making the hour 11 o'clock instead of 10 o'clock which was lost.

Mr. McCullough moved to have the Committee on General Laws discuss the bill for the further consideration of Senate bill 81, incorporating a telephone company for Scott county. Mr. Churchman made the same motion in regard to Senate bill 21 providing for confirming the charter of the Long Distance Telephone Company of Virginia. Both motions were adopted.

Mr. Anderson called up his joint resolution offered on Thursday, providing for the removal of the system of sewerage in recent years had had delegates at large, and he thought it highly necessary to the success of the Virginia convention that this course be adopted.

Mr. Saunders' argument was a very comprehensive one, and he was closely listened to by the House.

Mr. Baker, of Chesterfield, followed in favor of one hundred members and reported on some strictures made on that day in debate Thursday. He paid a glowing tribute to the membership of the House, and closed by urging that this basis be adopted.

HOUSE BILLS PASSED.

To exempt certain lands of H. V. Hudson from taxation by the town of Luray for corporation purposes.

To amend and re-enact section 317 of the Code of Virginia so as to close the clerk's office of the courts of Norfolk county and the city of Portsmouth on all legal holidays.

To authorize the Newport News Shipbuilding and Dry Dock Company to sell or otherwise dispose of and convey its properties and franchises or any thereof to any person or persons, or any corporation or corporations, or any association or associations created by or existing under the laws of the State of Virginia, or of any other State, or of the United States, or created by and existing under the laws of any foreign government.

To authorize the Board of Supervisors of Louisa county to raise money temporarily for the purpose of defraying small-pox or other extraordinary expenses.

To provide for re-taking the census of school population in the Elk Creek District of Grayson county.

To amend and re-enact section 1696 of the Code of Virginia in relation to State hospitals for the insane and the commitment of insane persons.

To allow C. W. Thomas further time to collect certain tax tickets.

To amend and re-enact an act entitled an act to define what are officers and employees of cities, towns and counties, approved February 12, 1893.

To correct the error in chapter 125, Acts 1893, as to the name of H. L. Bowen.

To amend and re-enact chapter 354 of the Acts of the General Assembly of Virginia 1893-90, entitled "An act to amend and re-enact section 65 of an act entitled an act to incorporate the city of Newport News in the county of Warwick," approved February 27th, 1890.

To give justices of the peace in incorporated towns of Charlotte county concurrent jurisdiction with mayors of said towns in trying offenses against the Commonwealth.

To amend and re-enact section 3319 of the Code of Virginia, as amended and re-enacted, so as to give Tappahannock county five commissioners in chancery.

To enable the Council of the town of Marion to borrow money and issue bonds therefor.

PLACED ON THE CALENDAR.

By Mr. Parker—to amend and re-enact an act entitled an act to provide for the payment of charter fees where charters granted by the courts are certified in whole or in part by the General Assembly so as to provide for additional fees where court charters or any of its provisions are ratified or amended.

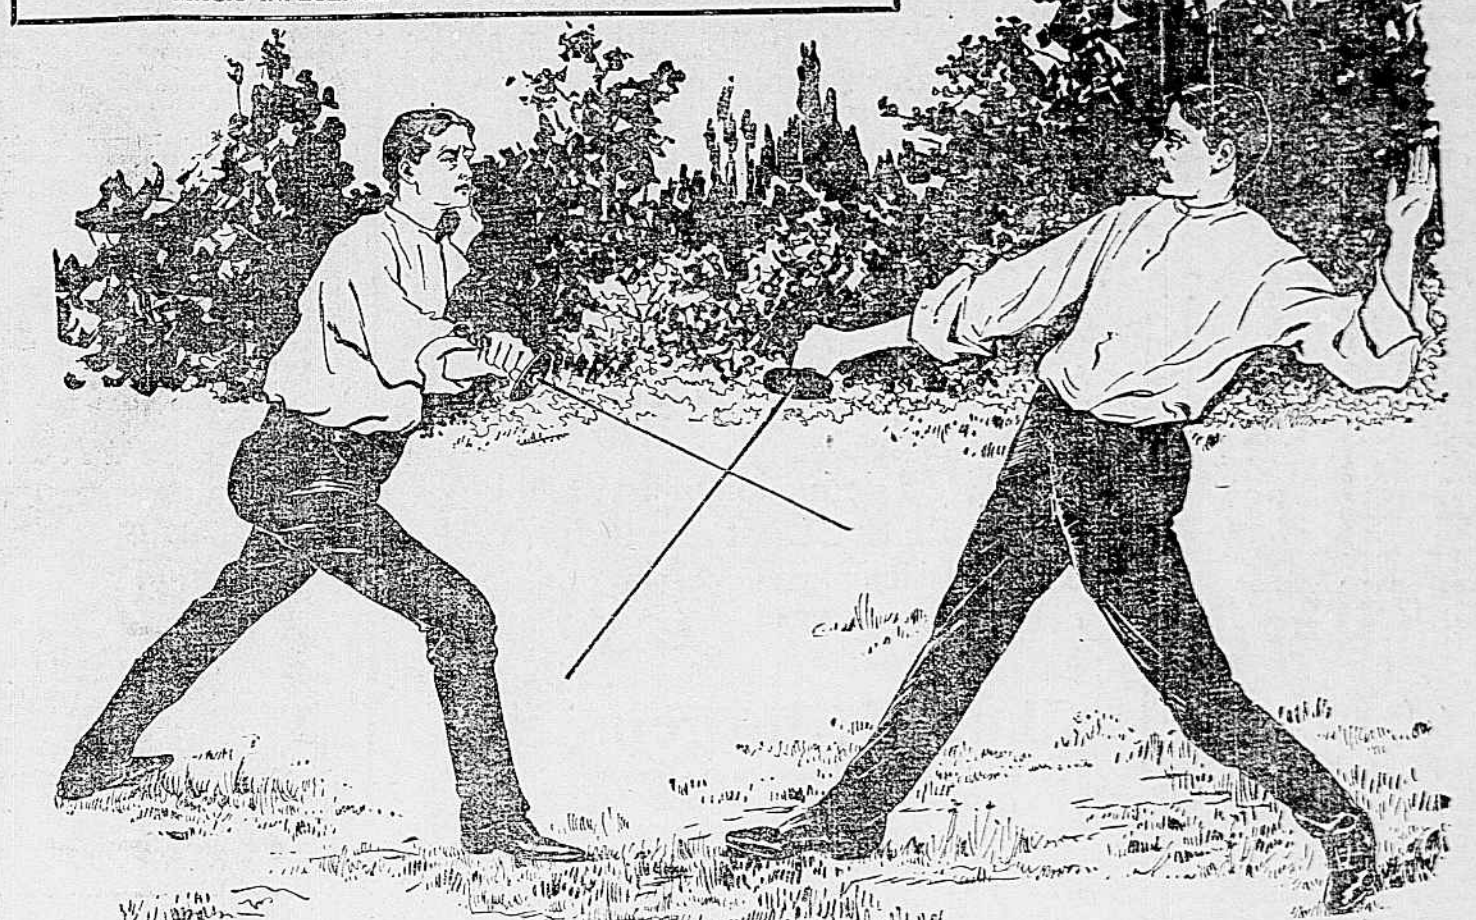

By Mr. Dupuy—to incorporate the Sportsman's Protective Association of Roanoke, Va.

By Mr. Stoner—to amend and re-enact sections 2 and 8 of an act entitled an act

MEN OF MIGHT.

Strong Nerves and Buoyant Blood made by Dr. Greene's NERVURA

NEW LIFE AND HOPE FOR WEAK AND DESPONDENT MEN—OVERWORK AND VITAL WEAKNESS LOSS THEIR TERRORS—MAGIC INFLUENCE OF DR. GREENE'S NERVURA.

WHO ever heard of a nerveless hero? What despondent warrior ever won a battle? What great idea was ever evolved from a sleepless brain? What high ideal or lofty aspiration ever came from low vitality? It is the blood and nerves that move the world physically, mentally, and morally.

Napoleon had nerves of steel at Ansterlitz and dyspepsia at Waterloo. King Richard suffered the agonies of insomnia the night before he met Richmond on the fatal field of Bosworth.

Low vitality, nervous weakness and ex haustion cause a majority of failures in every walk of life.

Are your nerves weak, shaky, and unstrung? Are you unable to sleep at night or do you have dreams? Is it irksome to move, work, or think during the day? Do you have dizziness, loss of memory, dimness of vision? Do you have the blues, despondency, depression of mind? Are you troubled with weak back, tremors, trembling, or palpitation?

There are many cases of complex character which patients cannot fully understand. Dr. Greene cordially invites all such sufferers to consult with him fully and freely, personally or by letter, at his office, 35 West 14th Street, New York City. There is no charge for such consultation and every communication is absolutely confidential.

CASE AGAINST ARTHUR LESLIE

Partially Heard by Justice Crutchfield and Continued to Wednesday.

Justice Crutchfield, in the Police Court yesterday, continued the case of Arthur Leslie, charged with feloniously assaulting R. W. Ivey, on the evening of January 22, 1901.

By Mr. McConnell—to repeal an act approved March 2, 1900, entitled an act to authorize the Board of Supervisors of Scott county to lay levies to pay all outstanding road warrants.

By same—to amend and re-enact section 26 of an act approved March 6, 1900, entitled an act to amend and re-enact an act to authorize the Board of Supervisors of Scott county to lay levies to pay all outstanding road warrants.

By Mr. Cowan—to amend section 82 of the Code in relation to pay of overseers of the poor.

By same—to authorize the Board of Supervisors of Montgomery county to borrow money to macadamize and improve its road.

By Mr. Madison—to authorize and empower the Board of Supervisors of Scott county to build and maintain a wharf on the York river at some point on the New Kent shore of York river between Penn Point and Weir Creek.

INTRODUCED AND REFERRED.

By Mr. Ware—for the relief of C. F. Howe.

By Mr. Toney—to regulate the number of pounds of flour to be placed in a barrel.

By Mr. Goad—for the relief of David P. Jacobs.

By Mr. Galleher—to amend the law in relation to the assessment of taxes.

FREDERICKSBURG AGAIN.

(Special Dispatch to The Times.)

FREDERICKSBURG, VA., Feb. 2.—The work on the general system of sewerage for the city and on the street paving recently ordered by the City Council will commence in a few days under the supervision of Engineer N. W. Davis, of Charlottesville.

Mr. C. W. Perry, a prominent merchant of this county, has purchased a large part of the estate of the late Nathan Talley, near Spotsylvania C. H., containing 299 acres, which he will at once improve. Mr. Eugene Conway, who has many relatives and friends in this city and Stafford county, and Miss Marie Allis, of Milwaukee, Wis., were married Jan. 24th, at the residence of the bride's mother in this city.

Invitations have been received here for the wedding of Miss Marie De Coster Myers to Mr. Thomas Eugene Perkins. The wedding will take place Thursday, February 14th, in Tallahassee, Florida. The bride-elect has many friends here where she has frequently visited.

WOODSTOCK WATER-WORKS. (Special Dispatch to The Times.)

WOODSTOCK, VA., Feb. 2.—The Council of the Town of Woodstock are advertising for bids for the erection of a system of water works, which was voted upon on the 28th of last November. Bids will be opened on February 15, 1901, and the contract will call for the completion of the system by the 2nd of June, 1901. The water will be carried to the town from the west side of Massanutten mountain, 2.6 miles by the gravity system, the reservoir being on the mountain. Negotiations for the sale of the \$29,000 bonds are also to be carried on. These bonds

Pointed to let him see her watch. She did so and Tom started out with it. "Don't take that air watch," said Bessie, "cause I goner send it to the country."

Tom took it, however, and went on out, and when he was arrested by the officer, he said he was "jest foolin'," but he had lost the watch.

He was sent down for sixty days. John Mayo, alias Tom, alias White Robinson (colored), was sent on to the grand jury on the charge of entering the boarding place of Mr. T. J. Bagley and carrying off an overcoat.

Walter Scale (colored), as a suspicious character, was sent to the rock-pile for sixty days.

Thomas Coates (colored) asked Bessie Pointer to let him see her watch. She did so and Tom started out with it. "Don't take that air watch," said Bessie, "cause I goner send it to the country."

Tom took it, however, and went on out, and when he was arrested by the officer, he said he was "jest foolin'," but he had lost the watch.

These are some of the symptoms of nervous debility, vital weakness, nervous and physical exhaustion from over-work, excesses, and abuses.

The exhausted and hopeless feelings which you experience are merely symptoms of the disease.

A thorough revitalization is what you want. Science has provided a specific for nervous debility, vital weakness and vitiated blood. It is the discovery of the famous Dr. Greene, and is known as Dr. Greene's Nervura blood and nerve remedy. Under the magic influence of this wonderful medicine the nerves soon regain their lost power and the spirits become buoyant as the body grows strong. The reinvigorated blood courses through the veins, substituting health and vitality for lassitude and despair.

Thousands of people—judges, statesmen, merchants, and workmen—testify from personal experience to the prompt and permanent benefit of Dr. Greene's Nervura. The great good it has done for them it will certainly do for you. It is a sin to suffer when relief is within reach.

There are many cases of complex character which patients cannot fully understand. Dr. Greene cordially invites all such sufferers to consult with him fully and freely, personally or by letter, at his office, 35 West 14th Street, New York City. There is no charge for such consultation and every communication is absolutely confidential.
